Audi A4 Avant (from 2015)  
Owners Ratings | Parkers  
Indeed, they gave me a  
different car to compare,  
and it had the very same  
issue, ergo, problem solved  
, this is not an issue for  
Audi. Extremely  
disappointing. A second  
bothering thing is the noisy  
rear suspension which makes  
a (almost similar) noise  
that reverberates in the  
body of the car.

Which is why a car like this one, the Audi A4 Allroad sold between 2004 and 2009, would seem to make a lot more sense. Audi's allroad concept is pretty straightforward. Take one of their standard quattro all-wheel drive Avant estates, then give it a bit of extra ride height and some body cladding to protect the bodywork (or more likely, to remind the neighbours what you've bought).

interior and great build quality make the A4 a good car, but it's starting to look a little out-of-date and will soon be replaced."

Audi A4 saloon (2011-2015) | owner reviews: MPG, Problems

...

My first Audi and while the ride is isn't quite as smooth as my old Citroen Xantia estate it is far more capable and luxurious. The car was just over 5 years old when I bought it as the third owner. It had just over 100,000 miles on it but still feels like new when you drive it.

Honest John

The Audi A4 is a premium car that demands few compromises from its owners. Now in its fifth iteration, it has been locked in a fierce battle for control over company car parks and suburban driveways for 30 years.
