Anyone out there have hands-on experience (not just hearsay, "Oh, they're crap") with the Century 230-amp AC/ 140 amp DC welder? I know they're not a top-line brand, but Century has been around for a long time so must have some merit. I already have two Lincoln 225 AC tombstones, a Lincoln argon-shielded mig, and oxy-acetylene, so I'm not

years ago Century developed innovative technology allowing battery chargers to harness the transformer of a welder for its charging ability. Century was one of the first companies to pioneer a 110v battery charger. Shortly after we developed the "boost" feature that revolutionized the industry. The design was an instant success and provided the first real charging option.
