User Accounts. Let's start  
off by compartmentalizing  
end users versus application  
users, they're very  
distinct. End users manage

# Acces PDF Cisco Unity Express End User Guide

their individual phones. Application users run things like an application within the environment, such as, maybe they are in a primary answering position so they are in the attendant console environment, or maybe they are managing the Contact Center Express or logging in to Contact Center Express or the Communications Manager Assistant tool.
