Vagaries of fashion through the ages presented for the general reader by a British scholar.

Meticulously researched text and nearly 700 illustrations depict wide range of apparel -- from fur-trimmed cloaks and brocaded robes worn by courtiers and the nobility to simpler mantles, tunics, gowns, and more.

Tracing the evolution of fashion—from the early draped fabrics of ancient times to the catwalk couture of today, *Fashion: The Definitive History of Costume and Style* is a stunningly illustrated guide to more than three thousand years of shifting trends and innovative developments in the world of clothing. With a wealth of breathtaking spreads—from ancient Egyptian dress to Space Age Fashion and Grunge—and information on icons like Marie Antoinette, Clara Bow, Jacqueline Kennedy, and Alexander McQueen, *Fashion* will captivate anyone interested in style—whether it's the fashion-mad teen in Tokyo, the wannabe designer in college, or the fashionista intrigued by the violent origins of the stiletto and the birth of bling.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

This book reveals the impact of wartime and austerity on British fashion and tells the story of how a spirit of patriotism and make-do-and-mend unleashed a wave of new creativity among women who were starved of high fashion by shortages and rationing. Many home dressmakers copied the high-end looks, and women involved in war work created a whole new aesthetic of less formal street wear. Fashion in the 1940s also shows how the Second World War shifted the centre of the international couture scene away from Paris, allowing British designers to influence Home Front style. Afterwards Paris fashion was re-born with Dior's extravagant New Look, while casual American trends were widely adopted by young British women and men.

A history of costume and fashion spanning the civilizations of ancient Greece and Egypt through nineteenth-century Europe, including the clothing, footwear, accessories, and hairstyles of individuals from all levels of society.
