In many ways the French Revolution--a series of revolutions, in fact, whose end has arguably not yet arrived--is modernity in action. Beginning in reform, it blossomed into wholesale attempts to remake society, uprooting the clergy and aristocracy, valorizing mass movements, and setting secular ideologies, including nationalism, in motion. Unusually manifold and complicated, the revolution affords many teaching opportunities and challenges. This volume helps instructors seeking to connect developments today--terrorism, propaganda, extremism--with the events that began in 1789, contextualizing for students a world that seems always unmoored and in crisis. The volume supports the teaching of the revolution's ongoing project across geographic areas (from Haiti, Latin America, and New Orleans to Spain, Germany, and Greece), governing ideologies (human rights, secularism, liberty), and literatures (from well-known to newly rediscovered texts). Interdisciplinary, intercultural, and insurgent, the volume has an energy that reflects its subject.

Considers the fullest resources of social, cultural, and political history and includes accounts of private and public lives to help see the reality of the revolution.

From an award-winning historian, a magisterial account of the revolution that created the modern world The principles of the French Revolution remain the only possible basis for a just society -- even if, after more than two hundred years, they are more contested than ever before. In *A New World Begins*, Jeremy D. Popkin offers a riveting account of the revolution that puts the reader in the thick of the debates and the violence that led to the overthrow of the monarchy and the establishment of a new society. We meet Mirabeau, Robespierre, and Danton, in all of their brilliance and vengefulness; we witness the failed escape and execution of Louis XVI; we see women demanding equal rights and black slaves wresting freedom from revolutionaries who hesitated to act on their own principles; and we follow the rise of Napoleon out of the ashes of the Reign of Terror. Based on decades of scholarship, *A New World Begins* will stand as the definitive treatment of the French Revolution.

The majority of these papers were originally published in *Social Research*, v. 56, no. 1, spring 1989.

Handy introduction to one of the most significant and studied events in world history Blending narrative with analysis, Peter Davies explores a time of obscene opulence, mass starvation, and ground-breaking ideals; where the streets of Paris ran red with blood, and the numbers requiring execution precipitated the invention of the guillotine. Davies brings the

subject up to date by considering the legacy of the revolution and how it continues to resonate in today's France.

The landmark history of France and French culture in the eighteenth-century, a winner of the Los Angeles Times Book Prize When the apprentices of a Paris printing shop in the 1730s held a series of mock trials and then hanged all the cats they could lay their hands on, why did they find it so hilariously funny that they choked with laughter when they reenacted it in pantomime some twenty times? Why in the eighteenth-century version of Little Red Riding Hood did the wolf eat the child at the end? What did the anonymous townsman of Montpellier have in mind when he kept an exhaustive dossier on all the activities of his native city? These are some of the provocative questions the distinguished Harvard historian Robert Darnton answers *The Great Cat Massacre*, a kaleidoscopic view of European culture during in what we like to call "The Age of Enlightenment." A classic of European history, it is an essential starting point for understanding Enlightenment France.
