Foxmask is the second book of a fantasy duet from  
Juliet Marillier, weaving history and folklore into a  
saga of adventure, romance, and magic. The  
Norseman Eyvind, a fierce and loyal Wolfskin, came to  
a new land on top of the world to find his destiny.  
With his priestess bride Nessa he saved the land and

weathered the treachery that was caused by Eyvind's blood-sworn friend Somerled. After much pain and sorrow the two lovers have managed to create a society where the Norse warriors and the gentle folks of the Orkney Isles live and thrive in contentment at last. A decade and more has passed since the devastating events of the creation of the settlement and Eyvind and Nessa have watched their children grow and thrive in peace. But not all on the islands are content or at peace. Thorvald, the young son of Margaret, widow of the slain king and Eyvind's war leader, has always felt apart and at odds with all he knows. He learns upon his coming to manhood that he is not his father's son but that of the love that Margaret bore for the hated Somerled and that Somerled was not killed for his treachery but sent on a boat, adrift with little more than a knife and skein of water, doomed to the god's will. Thorvald is determined to find a boat and cast off to the West in a desperate bid to find a father he never knew...and to find out if he is made of the same stuff as the heinous traitor. The tragedy of this scheme would be horrific enough...if it were not for the fact that Creidhe, the winsome daughter of Eyvind and Nessa has loved Thorvald since birth and unbeknownst to him conspires to go along on this most perilous of quests. What happens to them on their journey of discovery will ultimately change the lives of all they know and love...and will doom (or redeem) an entire people. was lost and without hope with nothing of this earth that belonged to him except the cold fingers of the grave - to which he refused to retreat. Marley saves the soul of a dear friend and finds himself trapped between the realm of untapped power and endless damnation. Waiting and waiting, hoping to prove himself... WORTHY!

Contraband cargo-young and female-from a wrecked Ukraine freighter washes up on Rockaway Beach. But one victim died before she even hit the dark waters of the Atlantic. Only one other story has the power to grab New York ADA Alexandra Cooper's attention-that of a New York congressman's dive into disgrace following a sordid sex scandal. When Alexandra discovers that the freighter victim and the congressman's lover are connected in a way that simply can't be coincidence, it strikes her that these cases aren't as unrelated as they seem. She unearths a secret that will not only shatter the entire political landscape of New York, but expose Alexandra to the darkest, most dangerous, and most profoundly disturbing revelation of her career. Maximizing productivity without regard for human consequences, the quest for profit above all else, the stifling of individual personality and creative expression, a competitive atmosphere-these are the reigning features of the modern workplace. Although many writers have called attention to the debilitating effects of this dehumanization of the working environment, solutions have been less in evidence. In *The Anatomy of Ethical Leadership*, Lyse Langlois frames the problem in terms of ethics, pointing to the

fact that managers are often uncertain how to integrate ethical considerations into their process of decision making. She explores the instrumental, often highly legalistic patterns of thought that pervade modern organizations and proposes instead a new emphasis on dialogue and on modes of reasoning that make room for the complexity of ordinary reality. To that end, she outlines a trajectory for ethical, responsible, and authentic decision making--the TERA model--that managers can use to evaluate workplace situations, taking into account three interrelated ethical perspectives: care, justice, and critique. Leaders who have mastered the art of ethical thinking, she argues, can in turn foster relationships among co-workers that are not only more human but ultimately more productive.
