Jake O'Connor has problems. His time spent overseas with Britain's SAS Regiment still gives him nightmares, his social life is in the toilet, and his best friend is an unrepentant adrenaline junkie. Unfortunately, just as things finally seem to go his way, decomposing corpses of the recently dead begin rising to gnaw on the living. Soon the streets are glutted with mindless creatures hungering for only one thing: human flesh. Jake's unlikely group of friends needs to make tracks for some kind of refuge before they end up as hors d'oeuvres, but how to do that without being turned into drooling maggot-heads themselves? Now, a burned out combat journalist, a self-proclaimed adrenaline junkie, a health food store owner, and a ditzzy pharmacy tech have to hold their own against legions of walking corpses. At first glance, none of them are likely candidates to survive for long in The Inevitable Zombie Apocalypse. But hey, stranger things have happened. Psychopaths, escaped criminals, and para-military white supremacists all stand in their way, not to mention the ever-increasing, zombie hordes. If Jake doesn't want to become one of the shambling dead he'll need to keep his whits about him, and his crowbar handy.

Dawson presents his take on the current state of the nation, sharing a collection of his thoughts and research gathered over the course of his lifetime. He feels Americans have lost their respect for each other, possibly due to the fast pace of life in the current times. Whats more, the country has a severe and increasing debt problem, both nationally and individually. Even so, Dawson has witnessed amazing accomplishments by brave and dedicated people in his lifetime. He holds that the formula for success in life is faith, self-reliance, hard work, perseverance, and responsibility. He believes that anyone maintaining these attributes will become successful at any endeavor they attempt. This personal reflection presents a call to action for Americans of all ages to understand their history and prepare for their future.
