The NICET exam is very similar to the NETA exams, so the study guides provided on this website, as well as the practice tests, are very useful. I obtained my NICET Level 1 cert earlier this year, and most of the questions were safety related (PPE, unsafe work conditions, and safe work practices), with some questions concerning the purposes of the NFPA (70, 70E, and 70B) and basic electrical math.

An intermediate-level study of audio systems technology as it is practised in the industry. It covers: basic audio calculations; acoustical measurements; microphones, loudspeakers and mixers; trigonometry and geometry; wiring and cabling; business communication; and bench test equipment.

Closed circuit television (CCTV) is experiencing a leap in technology using digital techniques, networking and the Internet. The new edition of this high-level professional reference retains the particulars that made the first edition a success, including the details of CCD cameras, lenses, coaxial cables, fiber-optics, and system design, but it is expanded to cover all video compression techniques used in the ever increasing assortment of digital video recorders (DVRs) available on the market today. This new edition of the book CCTV demystifies DVR technology. It also serves to clarify the technology of data networking. The theoretical section explains the various compression techniques. Networking is also a new and unknown area for many CCTV installers and this is explained in a brand new section. New edition more accessible
