Provides the final report of the 9/11 Commission detailing their findings on the September 11 terrorist attacks.

Protect lives and property with state-of-the-art guidance on conducting safe, thorough, accurate inspections! Expanded with updated facts and new chapters! Completely revised and updated to reflect the latest procedures and code requirements, the Fire and Life Safety Inspection Manual is your step-by-step guide through the complete fire inspection process, with special emphasis on life safety considerations. Formerly the NFPA Inspection Manual, it covers the full range of hazards and gives you solid advice on identifying and correcting problems. Easy-to-follow checklists help you remember and record every important detail. Early chapters provide important background information, while the second half presents inspection guidelines for specific fire protection systems and occupancies that are based on the Life Safety Code(R). In addition to discussing fundamentals such as inspection procedures and report writing, this comprehensive manual now includes all-

new chapters on Housekeeping and Building Procedures, Water Mist Systems, Day Care Occupancies, Ambulatory Health Care Facilities, and Semi-Conductor Manufacturing. With 150 illustrations, more sample forms, and a larger format, this acclaimed manual is more helpful than ever. Perfect for use in the field, the Manual features a new 8 1/2 x 11 size with full-page checklists at the back of the book linked to individual chapters. Detailed visuals throughout help you understand complicated concepts. Whether you're just starting your career as a fire inspector or ready to brush up on the basics, the Fire and Life Safety Inspection Manual has the reliable inspection advice you need.

When an organization moves away from a generations-long tradition of being all-male toward a future that includes men and women equally, a significant change takes place. Change can be upsetting and threatening to those who are used to, and invested in, the way things "have always been." Fire may know no gender, but people do, and the fire chief of the 1990's spends more time managing people than controlling fire. Increasing numbers of women are becoming firefighters and fire officers, entering and advancing in a field that is still heavily male by both population and tradition. Fire service leaders who are not prepared to manage these workforce changes may find their workforce is managing them instead.

"The Street Design Manual is New York City's comprehensive resource on street design guidelines, policies, and processes. It aggregates a broad range of resources--from nationally recognized engineering and design guidelines and standards to federal, state, and local laws, rules, and regulations--to provide information on treatments that are allowed and encouraged on New York City streets. The Manual's intended audience is diverse, consisting of design professionals, city agencies and officials, community groups, and private developers."--Introduction.

Ten Strategies of a World-Class Cyber Security Operations Center conveys MITRE's accumulated expertise on enterprise-grade computer network defense. It covers ten key qualities of leading Cyber Security Operations Centers (CSOCs), ranging from their structure and organization, to processes that best enable smooth operations, to approaches that extract maximum value from key CSOC technology investments. This book offers perspective and context for key decision points in structuring a CSOC, such as what capabilities to offer, how to architect large-scale data collection and analysis, and how to prepare the CSOC team for agile, threat-based response. If you manage, work in, or are standing up a CSOC, this book is for you. It is also available on MITRE's website, www.mitre.org.

The Air Compressor License Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam.

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards; Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The "NWCG Standards for Interagency Incident Business Management" assists participating agencies of the NWCG to constructively work together to provide effective execution of each agency's incident business management program by establishing procedures for: - Uniform application of regulations on the use of human resources, including classification, payroll, commissary, injury compensation, and travel. - Acquisition of necessary equipment and supplies from appropriate sources in accordance with applicable procurement regulations. - Management and tracking of government property. - Financial coordination with the jurisdictional agency and maintenance of finance, property, procurement, and personnel records, and forms. - Use and coordination of incident business management functions as they relate to sharing of resources among federal, state, and local agencies, including the military. - Documentation and reporting of claims. - Documentation of costs and cost management practices. - Administrative processes for all-hazards incidents.
