The Governance Gap: Extractive Industries, Human Rights ...  
This centrally important privileging of TNCs, in combination with corresponding international and national failures to regulate corporate activity, produces the 'governance gap' that forms a key critical concept in the authors' argument. This, the author's analysis suggests, is a gap requiring an urgent response.

Book Review: The Governance Gap: Extractive Industries ...  
Abstract. In The Governance Gap: Extractive industries, human rights, and the home state advantage, Canadian law scholars Penelope Simons and Audrey Macklin argue that there is a "governance gap" with respect to the prevention of, and accountability for, direct or indirect corporate human rights abuses in host states and the provision of redress to victims of such abuses.

Review of the Governance Gap: Extractive Industries, Human ...  
The Governance Gap: Extractive Industries and Human Rights. Tuesday 4th November 2014. Extractive industries claim to bring considerable benefits to a host state and are usually located there for very long periods. Yet some of these states have weak governance and will not or cannot protect against human rights violations.

The Governance Gap: Extractive Industries and Human Rights  
With good governance, transparent management, respect for community needs and the environment, revenues from extractive industries can have a dramatic impact on reducing poverty and boosting shared prosperity. For the first generation of countries, those undertaking resource development for the first time or having limited experience in transactions, knowledge of the optimum practices for developing their oil, gas, and mineral wealth not readily available.
