"I love you," she said. "I've loved you from the very moment we met. But I won't kiss you. I'm so close my lips are almost on yours, but I won't kiss you." Martha looked deeply into the other girl's eyes for a very long time. "I love you, too," she said. Then hungrily they fed on each other's lips. Martha grasped Mary Drew's hand. "Love me, will you? Not just kisses. Not any more."

Previously published as Handbook of Critical Care by CMG this book is a pocket-sized basic intensive care manual. The handbook is divided into 15 chapters, eight substantial ones covering the major organ systems, as well as infection, nutrition, physical injury and toxicology, and brief chapters on scoring systems and obstetrics. Many of the sections are loaded with very clear pictures, comparative tables, diagrams and lists, and provide more than adequate information for juniors training in intensive care medicine. Excellent use is made of bullet points and numbering, which vastly increases the clarity of presentation compared with many other books that are pitched at a similar audience.

Studios have been gaming the Oscar nominations for years - it's time the Academy took action! "Category fraud," Guy Lodge wrote in Variety, is "the practice of campaigning a leading performance in a supporting category (or, more rarely, vice versa) to increase an actor's chances of a nomination or win - and, in some cases, to avoid competition." There have been instances of category fraud ever since the Academy introduced the Best Supporting Actor and Best Supporting Actress categories in 1936 to honour the work of character actors and featured players without them having to compete at the Oscars with famous movie stars. In recent years, however, as awards season campaigns have become a ruthless and expensive business, category fraud has become more common and egregious. With publicists taking any opportunity to secure nominations for their famous clients, many lesser-known performers are missing out on well-deserved recognition at the Oscars. Supporting performers are being pushed aside by famous stars in co-lead roles, backed by powerful studios and well-funded 'for your consideration' campaigns. When studios first began promoting established stars in co-lead roles for the supporting categories in the 1950s, influential figures in the Screen Actors Guild protested and the Academy was forced to change its rules. Once the controversy subsided, however, the reform was repealed. Half a century later the practice is back: bigger and uglier than ever. Category Fraud charts the controversial history of this betrayal of the original reason for the introduction of the supporting categories and argues that it's once again time the Academy took action."

Urban Smuggler chronicles the rollicking life story of one of the most prolific smugglers of our time. After leaving school at 14, Andrew Pritchard started out selling weed at house parties before moving on to run some of the biggest warehouse raves of the acid-house era. The money began to roll in, but with it came trouble, and when someone was murdered at one of his parties he was forced to go on the run to Jamaica. It was there that Pritchard learned the tricks of the smuggling trade, and with corrupt UK Customs officers in his pocket it seemed that nothing could go wrong. But then someone in his network used his supply chain to start shifting industrial amounts of cocaine. When he went to meet a shipment of counterfeit cigars, he was seized by a Customs task force and arrested when the goods turned out to be half a ton of premium-grade cocaine. Following two controversial trials, Pritchard was acquitted after eighteen months on remand. In Urban Smuggler, he reveals just how easy it can be to import shiploads of contraband into the UK and exposes the corruption within the law-enforcement agencies tasked to tackle this kind of crime. Here, then, is the inside story of how to become an 'urban smuggler'.
