An influential media strategist reveals how blogs are controlling the news in the digital age and exposes the ways in which today's marketers are manufacturing news stories, affecting stock prices and shaping elections through fake story planting and misleading marketing tactics. 20,000 first printing.

Recently, fake news has become real news, making headlines as its consequences become crushingly obvious in political upsets and global turmoil. But it's not new - you've seen it all before. A malicious online rumour costs a company millions. Politically motivated 'fake news' stories are planted and disseminated to influence elections. Some product or celebrity zooms from total obscurity to viral sensation. Anonymous sources and speculation become national conversation. What you don't know is that someone is responsible for all this. Usually, someone like Ryan Holiday: a media manipulator. Holiday wrote this book to explain how media manipulators work, how to spot their fingerprints, how to fight them, and how (if you must) to emulate their tactics. Why is he giving away these secrets? Because he's tired of a world where trolls hijack debates, marketers help write the news, reckless journalists spread lies, and no one is accountable for any of it. He's pulling back the curtain because it's time everyone understands how things really work.

A primer on the future of PR, marketing and advertising – now revised and updated with new case studies "Forget everything you thought you knew about marketing and read this book. And then make everyone you work with read it, too." –Jason Harris, CEO of Mekanism Megabrands like Dropbox, Instagram, Snapchat, and Airbnb were barely a blip on the radar years ago, but now they're worth billions—with hardly a dime spent on traditional marketing. No press releases, no TV commercials, no billboards. Instead, they relied on growth hacking to reach users and build their businesses. Growth hackers have thrown out the old playbook and replaced it with tools that are testable, trackable, and scalable. They believe that products and businesses should be modified repeatedly until they're primed to generate explosive reactions. Bestselling author Ryan Holiday, the acclaimed marketing guru for many successful brands, authors, and musicians, explains the new rules in a book that has become a marketing classic in Silicon

Valley and around the world. This new edition is updated with cutting-edge case studies of startups, brands, and small businesses. Growth Hacker Marketing is the go-to playbook for any company or entrepreneur looking to build and grow.

Explores how some works and artists achieve longevity when most disappear after initial success.

An influential media strategist reveals how blogs are controlling the news in the digital age and exposes the ways in which today's marketers are manufacturing news stories, affecting stock prices and shaping elections through fake story planting and misleading marketing tactics. 20,000 first printing.

Fans of Ally Carter's Heist Society novels will love this teen mystery/thriller with sarcastic wit, a hint of romance, and Ocean's Eleven-inspired action. Julep Dupree tells lies. A lot of them. She's a con artist, a master of disguise, and a sophomore at Chicago's swanky St. Agatha High, where her father, an old-school grifter with a weakness for the ponies, sends her to so she can learn to mingle with the upper crust. For extra spending money Julep doesn't rely on her dad—she runs petty scams for her classmates while dodging the dean of students and maintaining an A+ (okay, A-) average. But when she comes home one day to a ransacked apartment and her father gone, Julep's carefully laid plans for an expenses-paid golden ticket to Yale start to unravel. Even with help from St. Agatha's resident Prince Charming, Tyler Richland, and her loyal hacker sidekick, Sam, Julep struggles to trace her dad's trail of clues through a maze of creepy stalkers, hit attempts, family secrets, and worse, the threat of foster care. With everything she has at stake, Julep's in way over her head . . . but that's not going to stop her from using every trick in the book to find her dad before his mark finds her. Because that would be criminal. "A sexy love triangle and madcap mystery . . . I loved this book." —Jennifer Echols, author of Dirty Little Secret One of TeenVogue's 15 Most Exciting YA Books of 2014 One of PopCrush's 10 Most Anticipated YA Books "Julep isn't just another high schooler beset by the usual drama of boys and academia. Nope—she also happens to be a con artist and master of disguise, which comes in mighty handy when her father mysteriously disappears. Determined, she delves into the underbelly of Chicago to find him (bringing a bunch of fresh plot lines and unexpected twists along the way)."—teenVogue.com "Summer creates a standout character in Julep. She lies and cheats with so much confidence and skill that readers will cheer her on, but she also adheres to her own strict moral code. . . . A memorable debut; here's hoping for a lot more from Summer."—Kirkus Reviews "Entertaining."—Publishers Weekly "Well-paced, well-plotted."—The Bulletin of the Center for Children's Books

The sequel to TRUST ME, I'M LYING "An irresistible mix of intrigue, high stakes, and self-discovery." —Lee Kelly, author of City of Savages LITTLE SECRETS. Staying out of trouble isn't possible for Julep Dupree. She has managed not to get kicked out of her private school, even though everyone knows she's responsible for taking down a human-trafficking mob boss—and getting St. Agatha's golden-boy Tyler killed in the process. Running cons holds her guilty conscience at bay, but unfortunately, someone wants Julep to pay for her mistakes . . . with her life. BIG LIES. Against her better judgment, Julep takes a shady case that requires her to infiltrate a secretive organization that her long-gone mother and the enigmatic blue fairy may be connected to. Her best friend, Sam, isn't around to stop her, and Dani, her one true confidante, happens to be a nineteen-year-old mob enforcer whose moral compass is as questionable as Julep's. But there's not much time to worry about right and wrong—or to save your falling heart—when there's a contract on your head. Murders, heists, secrets and lies, hit men and hidden identities . . . If Julep doesn't watch her back, it's her funeral. No lie. "I would trust Julep Dupree with my life, Dani Ivanov with my heart—and Mary Elizabeth Summer with my every late-night can't-stop-reading session. An intelligent, fierce heroine of strength and loyal heart who refuses to suffer fools lightly? Yes, please." —Jennifer Longo, author of Six Feet Over It and Up to This Pointe

An influential economist challenges popular opinions about the superiority of locally grown and expensive foods, demonstrating how to eat responsibly without submitting to fashion-driven trends. By the author of the best-selling e-book, The Great Stagnation. 35,000 first printing.

An NPR Book Concierge Best Book of 2018! A Sunday Times of London Pick of the Paperbacks A stunning story about how power works in the modern age--the book the New York Times called "one helluva page-turner" and The Sunday Times of London celebrated as "riveting...an astonishing modern media conspiracy that is a fantastic read." Pick up the book everyone is talking about. In 2007, a short blogpost on Valleywag, the Silicon Valley-vertical of Gawker Media, outed PayPal founder and billionaire investor Peter Thiel as gay. Thiel's sexuality had been known to close friends and family, but he didn't consider himself a public figure, and believed the information was private. This post would be the casus belli for a meticulously plotted conspiracy that would end nearly a decade later with a \$140 million dollar judgment against Gawker, its bankruptcy and with Nick Denton, Gawker's CEO and founder, out of a job. Only later would the world learn that Gawker's demise was not incidental--it had been masterminded by Thiel. For years, Thiel had searched endlessly for a solution to what he'd come to call the "Gawker Problem." When an unmarked envelope delivered an illegally recorded sex tape of Hogan with his best friend's wife, Gawker had seen the chance for millions of pageviews and to say the things that others were afraid to say. Thiel saw their publication of the tape as the opportunity he was looking for. He would come to pit Hogan against Gawker in a multi-year proxy war through the Florida legal system, while Gawker remained confidently convinced they would prevail as they had over so many other lawsuit--until it was too late. The verdict would stun the world and so would Peter's ultimate unmasking as the man who had set it all in motion. Why had he done this? How had no one discovered it? What would this mean--for the First Amendment? For privacy? For culture? In Holiday's masterful telling of this nearly unbelievable conspiracy, informed by interviews with all the key players, this case transcends the

narrative of how one billionaire took down a media empire or the current state of the free press. It's a study in power, strategy, and one of the most wildly ambitious--and successful--secret plots in recent memory. Some will cheer Gawker's destruction and others will lament it, but after reading these pages--and seeing the access the author was given--no one will deny that there is something ruthless and brilliant about Peter Thiel's shocking attempt to shake up the world.

Wondering if science could explain how he survived his 40-year avalanche of drugs and alcohol, Ozzy Osbourne became one of a handful of people in the world to have his entire DNA mapped in 2010. It was a highly complex, \$65,000 process, but the results were conclusive: Ozzy is a genetic anomaly. The "Full Ozzy Genome" contained variants that scientists had never before encountered and the findings were presented at the prestigious TEDMED Conference in San Diego-making headlines around the world. The procedure was in part sponsored by The Sunday Times of London, which had already caused an international fururoe by appointing Ozzy Osbourne its star health advice columnist. The newspaper argued that Ozzy's mutliple near-death experiences, 40-year history of drug abuse, and extreme hypocondria qualified him more than any other for the job. The column was an overnight hit, being quickly picked up by Rolling Stone to give it a global audience of millions. In TRUST ME, I'M DR. OZZY, Ozzy answers reader's questions with his outrageous wit and surprising wisdom, digging deep into his past to tell the memoir-style survival stories never published before-and offer guidance that no sane human being should follow. Part humor, part memoir, and part bad advice, TRUST ME, I'M DR. OZZY will include some of the best material from his published columns, answers to celebrities' medical questions, charts, sidebars, and more.
