which everyone feels included. The author offers a comprehensive survey of demographic groups and an analysis of their history, allowing students to develop a deep understanding of the dimensions of diversity. From this foundation, students are taught to manage diversity effectively on the basis of race, sex, LGBTQIA, religion, age, ability, national origin, and intersectionality in organizations and to understand the issues various groups face, including discrimination. Opening with current case studies and discussion questions to enhance comprehension, the chapters provide practical insight into subconscious/implicit bias, team diversity, and diversity management in the United States and abroad. "Global View" examples further highlight how diversity management unfolds around the world. Offering a fresh look at workplace diversity, this book will serve students of diversity, human resource management, and organizational studies. A companion website featuring an instructor's manual, PowerPoint slides, and test banks provides additional support for students and instructors.
